Borrowing

Borrowing

Only one variable can own a piece of memory

Borrowing

Only one variable can own a piece of memory

Variables can borrow ownership to other pieces of memory

Borrowing

Only one variable can own a piece of memory

Variables can borrow ownership to other pieces of memory

```
let a = 6;
let b = &a;
```

Borrowing

Only one variable can own a piece of memory

Variables can borrow ownership to other pieces of memory

```
let a = 6;
let b = &a;
```

```
println!(“{}”, *b);
```

Borrowing

Only one variable can own a piece of memory

Variables can borrow ownership to other pieces of memory

```
let a = 6;
let b = &a;
```

```
println!(“{}”, *b);
```

```
a += 2;                    // error
```

Borrowing

Only one variable can own a piece of memory

Variables can borrow ownership to other pieces of memory

```
let a = 6;
let b = &a;
```

```
println!(“{}”, *b);
```

```
a += 2;                    // error
```

The borrow has to match the mutability
